**Navy Modifies Certificates Of Discharge**

Former enlisted personnel of the Navy who hold certificates of discharge previously issued "under satisfactory conditions" may now exchange them for "certificates of discharge under honorable conditions," Eleventh Naval District officials declared today.

The change in the title of this class of discharge, authorized by the Secretary of the Navy, was effected to express more clearly the circumstances of the discharge, the Navy said. Ex-Navy men or women desiring to make the exchange may apply in person at the nearest naval activity authorized to effect the issuance of the new certificate or they may apply in writing, forwarding the certificate they now hold to the Chief of Naval Personnel, Navy Department, Washington 25, D. C. Naval activities authorized new certificates include main Navy recruiting stations, the commandants of all Naval districts in the continental United States, the commandants and commanding officers of U. S. Naval Training Stations, the commanding officers of receiving ships and stations in the continental United States, and the chiefs of Air Training Commands.

**Requirement For Registry, Voting Bared**

Citizens who will have resided in California for 12 consecutive months, in the same county 90 days and in the same precinct 40 days on May 16 may vote at the "consolidated" President preferential and state primaries on that date provided they register before April 6. It was announced today at the office of M. J. Donoghue, registrar of voters of Los Angeles County. Many would-be voters have been confused on this point, it was stated, thinking it necessary to have resided 12 months in the state, 90 days in the county and 40 days in the precinct before being eligible to register.

Citizens who have resided in California right along and who have missed voting in two successive general elections—primary or general—have lost their registration and must re-register if they wish to vote. They must also re-register if they have moved since they last voted, but may go back to their last voting precinct to cast their ballot if they moved within the 40 days when registration books were closed.

Donoghue also reminded citizens who will have become of age by May 16 to register. He added that persons who have received their citizenship papers can register 90 days after their papers are issued—not before.
